

# WARRIOR Writers

## Sponsor a Veteran

Warrior Writers is a community of veterans and artists that aims to generate awareness about and bear witness to veterans' experiences of war. Warrior Writers promotes healing and re-integration for soldiers returning from war through building a supportive community and providing veterans with a creative outlet. The Veterans and Community Conferences (VCC) are gatherings of veterans, artists, allies and healers. The VCC feature writing and art-making workshops, seminars on how to build healthy relationships between veterans and allies, and discussion panels on building local support for veterans. Holistic Healing sessions are offered free of charge to veterans throughout the conference. Veterans build a creative community around their shared experiences. Our overall goal is to create space and community for veterans and their allies to engage in healing and the re-integration process.

**With your generous support we can provide travel funds for veterans to attend a VCC. We greatly appreciate your heartfelt support for veterans working to heal our world.**
