

WARRIORWriters

Sponsor a Veteran

Warrior Writers of is a veteran support program initiated in Philadelphia with communities across the country. Warrior Writers promotes healing and re-integration for soldiers returning from war by building a supportive community and providing veterans with a creative outlet. In honor of Veterans Day, Warrior Writers hosted a wellness and creativity gathering in Philadelphia, November 9 –10, 2019. The Veterans Day Weekend Retreat brought together more than 30 veteran artists from across the country to participate in wellness activities such as writing, acupuncture, meditation, TRE (Tension and Trauma Releasing Exercises), reiki, and massage. The weekend ended on November 10 with a powerful public performance at the Kimmel Center featuring veteran poets and musical collaborators including acclaimed musician and composer Luke Carlos O'Reilly. This event was critical for our veterans who need to feel connected to a support system and other vets. Please help make this type of event possible by donating today.

With your generous support we can provide veterans with what they need to attend a retreat or workshop and help us pay our facilitators for on-line and in-person workshops. We greatly appreciate your heartfelt support for veterans working to heal our world. Please email media@warriorwriters.org with any questions.
